To all this concerns,

I (Jane McDougall) am writing this to explain that on the night, I called 911**It was an EMERGENCY...** I needed to get to hospital and was not worrying about any ambulance bill, I **was in such SEVERE PAIN**, the Medications that I was Prescribed was not wrking, I had to put ice packs on my head to try to help, but it only **INTENSIFIED the HEADACHE EVEN MORE!!** I am still sick with my headaches because of my sinus ' (ALLERGIES ARE NO JOKE) back again to the Dr's and to the Pharmacy for more antibiotics and treatment. After 2 months of being very sick which was actually a **SEVERE SINUS INFECTION that turned into a MASSIVE MIGRANE HEADACHE!!!!!!!!** I **DO APPRECIATE** the medical Treatment from the firemen and police, But I have to say **My husband was very concerned about the ambulance BILL, that we can not afford, we are having HARDSHIP! THAT IS THE MAIN REASON!!! My husband did bring me to the hospital that night and got my the medical attention, I needed and Medication that was nessecary** to SUBSIDE THE PAIN. He has been there for me over the years for all my sicknesses and brought me to the Dr's and Pharmacy for my needed medications, over the years. Patrick **DID NOT** interfere with the medical care the firemen were administrating to me while they were here. He was concerned about the **AMBULANCE BILL**, that we **can NOT AFFORD!!!** I feel the charges should be dropped immediatly , and **I Hope they will DISMISS these charges Immediatly as my husband is innocent.** I have enough going on with being sick.

THANK YOU FOR YOUR ATTENTION TO THIS,

Jane McDougall
